A		Carcinoma, renal cell	
Abdominal aorta, Computed tomography and ultrasound diagnosis of mycotic aneurysm of, due to salmonella, case report	325	Cardiac arrhythmias, a comparison of the incidence of, produced by two intravenous contrast media in coronary artery disease	399
Abdominal aortic aneurysm causing duodenal obstruction	513	Cardiothoracic ratio, in Nigerian newborn infants	187
Abnormal oesophageal scintigram, significance of	509	Carey-Coons, use of the modified cope introduction set for the removal of obstructed Carey-Coons biliary endoprosthesis	171
Abortion, ultrasound of the empty gestation sac in threatened Addison's disease, pituitary enlargement associated with, case report	127	Carey-Coons, percutaneous biliary endoprosthesis: a three-centre experience in 87 patients	175
Adrenal cortical carcinoma, survival after radiotherapy	435	Cephalic artery, case report: fibromuscular dysplasia of the cephalic and renal arteries	427
Adrenal mass, case report: malignant teratoma presenting with Adventitial cystic disease of popliteal artery	327	Cerebral atrophy, in younger persons: a comparative study between clinical examinations and computed tomography	367
Allergic bronchopulmonary aspergillosis, comparison of computed tomography and plain chest radiography	649	Cerebrospinal fluid analysis, diagnostic contribution of routine during myelography	169
Amoebic abscess, hepatic, sonography in complicated hepatic Aneurysm, abdominal aortic, causing duodenal obstruction	123	Cervix, carcinoma of, the influence of pelvic lymph node disease on survival for stage 1 and 2	13
Angiomyolipoma, case report, of the liver	513	Cervix, combination chemotherapy prior to radical radiotherapy for stage III and IV carcinoma of	273
Angioplasty, the place of percutaneous transluminal in the treatment of patients having angiography for ischaemic disease of the lower limb	329	Chest radiography, in chronic allergic bronchopulmonary aspergillosis	593
Aortic graft-enteric fistulae, angiographic signs of	157	Childhood cancer, second malignant neoplasms after: a report of three cases of osteogenic sarcoma	195
Appendicitis, case report, interstitial emphysema of the stomach due to perforated	503	Cholangiography, pre-operative intravenous as an alternative to routine operative in elective cholecystectomy	161
Arterio-venous fistula, case report; traumatic involving the portal venous system	315	Cholangiography, left subphrenic crescent sign	549
	91	Cholangiopancreatography, recurrent pyogenic cholangitis: ultrasound evaluation compared with endoscopic retrograde cholangiopancreatography	79
B		Cholecystectomy, pre-operative intravenous cholangiography as an alternative to routine operative cholangiography in elective	161
Balloon sign, missing	59	Cholecystitis, ultrasound changes of the gallbladder wall in: a sonographic-pathological correlation	389
Barium enema, case report, pneumoperitoneum, omental emphysema and intramural barium perforation following double contrast barium enema	319	Choroidal malignant melanomas, radiotherapy of	21
Barium meal, negative double-contrast: qualified reassurance	49	Colour flow mapping of oesophageal varices	487
Barium radiology, a sensitive test for gastro-oesophageal reflux	303	Computed tomography, of the liver after biopsy	97
Barrett's oesophagus, imaging	415	Computed tomography, extending the search pattern in	145
Benign gastric ulcer, case report: spontaneous healing of a gastrocolic fistula due to	431	Computed tomography, three-dimensional reformations, in facial trauma	523
Benign thymic cyst, case report: following mantle radiotherapy for Hodgkin's disease	289	Computed tomography, of the abdomen in advanced seminoma	629
Bilateral pneumothorax, case report: secondary to metastatic angiosarcoma of the breast	201	Computed tomography air meatography, morbidity of	535
Bile duct, case report: carcinoma of, in a focal dilatation of the intrahepatic	209	Computed tomography in retroperitoneal fibrosis	597
Bilharziasis, striation of the renal pelvis and ureter in	407	Computed tomography, of hepatic mass, correlated with magnetic resonance imaging	559
Bladder cancer, after pelvic irradiation	583	Computed tomography, narrow section, in chronic allergic bronchopulmonary aspergillosis	593
Bone imaging, in dysbaric osteonecrosis	589	Computed tomography, of parenchymal liver disease, compared with ultrasound	495
Brachytherapy, new methods for implanting plastic tubes for ¹⁹² Ir using steel needles	275	Contrast media, radiological (annotation)	3
Breast, subclavian and axillary vein thrombosis following radiotherapy for carcinoma of	95	Cope introduction set, use of the modified for transhepatic removal of obstructed Carey-Coons biliary endoprosthesis	171
Breast, case report: bilateral pneumothorax secondary to metastatic angiosarcoma of	201	Coronary artery disease, a comparison of the incidence of cardiac arrhythmias produced by two intravenous contrast media in	399
Breast, case report: phyllodes tumour of: response to radiotherapy	287	Cystic nephroma, multilocular cystic nephroma: report of three cases	55
Breast cancer, fat necrosis of: an unusual complication of lumpectomy and radiotherapy in	31		
Breast cancer, changes in helper and suppressor T lymphocytes following radiotherapy for	191	D	
Breast cancer, short term morbidity and cosmesis following lumpectomy and radical radiotherapy for operable	371	Deep-vein thrombosis, real-time ultrasound diagnosis of: a comparison with venography	309
Breast cancer screening, guidelines for	217	Digital subtraction venography, digital subtraction venography of the upper extremity	423
Breast lesions, an evaluation of transmission spectroscopy (lightscanning) in the diagnosis of symptomatic	375	Distal humeral epiphysis, fracture separation	635
Burkitt's lymphoma, jaw radiograph in	519	Diverticulosis of the fallopian tubes, case report: Gartner's duct associated with	207
C		Doppler ultrasound, of oesophagogastric varices	487
Cancer, bladder, after pelvic irradiation	583	Double contrast ileostomy enema	621
Carcinoma of the breast, comparison of computed tomography and conventional radiology in the assessment of treatment response of lytic bony metastases in patients with	351	Duodenal obstruction, caused by abdominal aortic obstruction	513

| Fat necrosis, of the breast: an unusual complication of lumpectomy and radiotherapy in breast cancer | 31 | Liver, computed tomography of, after biopsy | 97 |
| Fibromuscular dysplasia, case report: of the cephalic and renal arteries | 427 | Liver, the appearances of multiple biliary hamartomas of (von Meyenberg complexes) on computed tomography | 101 |
| Fistulae, aortic graft-enteric, angiographic signs | 503 | Liver, case report: angiomyolipoma of | 329 |
| Fracture-separation of entire distal humeral epiphysis | 635 | Liver, apparent extra-hepatic invasion by metastatic tumours in | 357 |
| G | | | |
| Gallbladder, ultrasound changes of the wall in cholecystitis: a sonographic-pathological correlation | 389 | Liver, oesophagogastric varices in, colour flow mapping of .. | 487 |
| Gall bladder, empyema of | 655 | Low back pain, the investigation of sciatica and low back pain syndromes: current trends | 151 |
| Gartner's duct, case report: associated with diverticulosis of the fallopian tubes | 207 | Lumpectomy, short term morbidity and cosmesis following lumpectomy and radical radiotherapy for operable breast cancer | 371 |
| Gastrocolic fistula, case report: spontaneous healing of a gastrocolic fistula due to a benign gastric ulcer | 431 | Lymphadenopathy, demonstrated by mammography, implications for breast screening programme | 515 |
| Gastro-oesophageal reflux, barium radiology: a sensitive test for | 303 | Lytic bony metastases, comparison of CT and conventional radiology in the assessment of treatment response of lytic bony metastases in patients with carcinoma of the breast .. | 351 |
| Gestation sac, ultrasound of empty in threatened abortion | 127 | M | |
| H | | | |
| Haematocolpos in uterine duplication with renal agenesis | 545 | Magnetic resonance imaging, parenchymal liver disease | 495 |
| Haematoma, the varied CT appearances of acute spinal epidural | 363 | Magnetic resonance imaging, peri-aqueductal lesions | 527 |
| Hamartoma, hepatic, case report: the computed tomographic appearances of benign | 103 | Magnetic resonance imaging, of the solitary hepatic mass | 559 |
| Hamartomas, the appearances of multiple biliary of the liver (von Meyenberg complexes) on computed tomography .. | 101 | Malignant teratoma, case report: presenting with an adrenal mass | 327 |
| Head and neck, plasmacytoma of | 385 | Malignant biliary obstruction, endoscopic and percutaneous drainage | 603 |
| Head cancer, radiotherapy and methotrexate | 575 | Mammography, annotation: population screening by | 215 |
| Hepatic mass, magnetic resonance imaging of, correlated with pathology and computed tomography | 559 | Mammography, demonstrating axillary lymphadenopathy in breast screening programme | 515 |
| Hip instability tests, the ultrasound appearance of positive .. | 117 | Meckel's diverticulum, diagnosis | 615 |
| Hodgkin's disease, in childhood, British National Lymphoma Investigation experience (BNLI report no. 27) | 7 | Megaureter, primary non-obstructive in adults | 181 |
| Hodgkin's disease, systemic disturbance in, and its relation to histopathology and prognosis (BNLI report no. 30) | 257 | Metastases, case report: gastric and periurethral from seminoma testis | 63 |
| Hodgkin's disease, case report: benign thymic cyst following mantle radiotherapy for | 289 | Metastatic angiosarcoma, case report: bilateral pneumothorax secondary to metastatic angiosarcoma of the breast | 201 |
| Hydatid disease, magnetic resonance imaging in | 141 | Metastatic carcinoma, hemi-body radiotherapy in the management of | 267 |
| Hypertrophic pyloric stenosis, diagnosed from pyloric muscle index | 625 | Metastatic tumours, apparent extra-hepatic invasion by, of the liver | 357 |
| I | | | |
| Ileostomy enema, double contrast | 621 | Methotrexate and radiotherapy in head and neck cancer | 575 |
| Iohexol, the effect of intrathecal on visual evoked response latency: a comparison including incidence of headache with iopamidol and metrizamide in myelographic radiography | 71 | Metoclopramide, in radiation-induced nausea | 543 |
| | | Metrizamide, the effect of intrathecal iohexol on visual evoked response latency: a comparison including incidence of headache with iopamidol and, in myelographic radiography .. | 71 |

| Mycotic aneurysm, case report, computed tomography and ultrasound diagnosis of, in the abdominal aorta due to salmonella | 325 | Plastic tubes, new methods for implanting for ¹⁹² iridium brachytherapy using steel needles | 275 |
| Myelography, diagnostic contribution of routine cerebro-spinal fluid analysis during | 169 | Pneumoperitoneum, omental emphysema and intramural barium perforation following double contrast barium enema, case report | 319 |
| Myelographiculography, the effect of intrathecal iohexol on visual evoked response latency: a comparison including incidence of headache with iopamidol and metrizamide in | 71 | Popliteal artery, case report, perforation during low-dose intra-arterial streptokinase infusion | 321 |
| N | | Popliteal artery, adventitial cystic disease | 649 |
| Nabilone, in radiation-induced nausea | 543 | Population screening, annotation: by mammography | 215 |
| Nasopharyngeal carcinoma, a review of cases treated by radiotherapy and chemotherapy | 17 | Portacaval shunts, duplex ultrasound in the evaluation of | 87 |
| Nasopharyngeal carcinoma, treated by radiotherapy and chemotherapy | 557 | Portal vein thrombosis | 645 |
| Nausea, radiation-induced, nabilone and metoclopramide for | 543 | Portal venous system, case report: traumatic arterio-venous fistula involving the | 91 |
| Neck cancer, radiotherapy and methotrexate | 575 | Preoperative chest radiographs, compliance with the Royal College of Radiologists' guidelines on the use of | 45 |
| Nephroblastoma, treated by surgery, radiotherapy and chemotherapy | 483 | Pre-operative intravenous cholangiography, as an alternative to routine operative cholangiography in elective cholecystectomy | 161 |
| Nephrostomy, percutaneous in paediatrics | 245 | Primary hyperparathyroidism, the role of routine intravenous urography in patients with | 411 |
| Non-Hodgkin's lymphoma, of the thyroid | 277 | Prostatic cancer, ultrasound appearances of | 219 |
| Non-Hodgkin's lymphoma | 609 | Prostatism, ultrasound as alternative to intravenous urography | 479 |
| O | | Pyloric muscle index, in diagnosing infantile hypertrophic stenosis | 625 |
| Oesophageal scintigram, abnormal, significance of | 509 | Pyogenic cholangitis, recurrent, ultrasound evaluation compared with endoscopic retrograde cholangiopancreatography | 79 |
| Oesophagogastric varices, colour flow mapping | 487 | R | |
| Oesophagus, tuberculosis affecting | 419 | Radiation enteritis, medical management of—an algorithmic guide | 291 |
| Omental emphysema, case report, pneumoperitoneum, omental emphysema and intramural barium perforation following double contrast barium enema | 319 | Radiation therapy and modified relaxation times in cervical carcinoma | 569 |
| Ossification, inter-sterno-costo-clavicular | 33 | Radical hysterectomy, case report: high dose irradiation for recurrent carcinoma of the cervix following | 439 |
| Osteogenic sarcoma, second malignant neoplasms after childhood cancer: a report of three cases of | 195 | Radiology department, are we taught how to use as medical students? | 137 |
| Osteomas, of the temporal bone: a report of three cases | 67 | Radionuclide scintigraphy of parenchymal liver disease, compared with ultrasound | 495 |
| Osteonecrosis, dysbaric, bone imaging and skeletal radiology | 589 | Radiotherapy, whither? | 107 |
| Ovarian carcinoma, surgery, radiotherapy and whole abdominal radiotherapy in the management of advanced | 267 | Radiotherapy and methotrexate in head and neck cancer | 575 |
| Ovary, dysgerminoma of: a report on 29 patients | 203 | Rectum, extramedullary plasmacytoma of the rectum: two cases treated by radiotherapy | 283 |
| P | | Recurrent carcinoma of the cervix, case report, high dose irradiation for following radical hysterectomy | 439 |
| Paediatrics, percutaneous nephrostomy in | 245 | Recurrent pyogenic cholangitis | 557 |
| Parenchymal liver disease, magnetic resonance imaging of | 495 | Relaxation times modified by radiation therapy in cervical carcinoma | 569 |
| Parotid gland, differentiating tumours of the deep and superficial lobes of the parotid gland by computed tomographic sialography | 345 | Renal agenesis, associated with uterine duplication and unilateral haematocolpos | 545 |
| Parotid masses, a comparison of computed tomography and ultrasound in the assessment of | 339 | Renal artery, case report: fibromuscular dysplasia of the cephalic and | 427 |
| Pelvic lymph node disease, the influence of, on survival for stage 1 and stage 2 carcinoma of the cervix | 13 | Renal cell carcinoma | 653 |
| Pelvic irradiation, and bladder cancer after | 583 | Renal failure radiology | 457 |
| Percutaneous drainage, in malignant biliary obstruction | 603 | Renal, multilocular lesion | 475 |
| Percutaneous high brachial aortography | 557 | Renal pelvis, stricture of, and ureter in bilharziasis | 407 |
| Percutaneous transluminal angioplasty in ischaemic disease of the lower limb (letters) | 659 | Renal transplant, the ultrasound appearances of complications | 229 |
| Percutaneous transluminal angioplasty, the place of, in the treatment of patients having angiography for ischaemic disease of the lower limb | 157 | Renal transplant, percutaneous transluminal angioplasty of artery stenosis | 235 |
| Perforation, iopamidol in the diagnosis of suspected upper gastro-intestinal | 165 | Renal transplantation, arteriography of | 239 |
| Perforation, case report, pneumoperitoneum, omental emphysema and intramural barium perforation following double contrast barium enema | 319 | Retropertitoneal fibrosis, computed tomography of | 597 |
| Perforation, of popliteal artery during low dose intra-arterial streptokinase infusion | 321 | Routine intravenous urography, the role of, in patients with primary hyperparathyroidism | 411 |
| Peri-aque ductal lesions, magnetic resonance imaging of | 527 | Routine operative cholangiography, pre-operative intravenous cholangiography as an alternative to, in elective cholecystectomy | 161 |
| Pericardiocentesis, real-time ultrasound scanning in the planning and guidance of | 119 | Royal, compliance with the Royal College of Radiologists' guidelines on the use of pre-operative chest radiographs | 45 |
| Peripheral arteriography, simplified | 425 | S | |
| Peritoneal fluid, ultrasound diagnosis of splenic injuries in children—the importance of free | 395 | Salmonella, case report, computed tomography and ultrasound diagnosis of mycotic aneurysm of the abdominal aorta due to | 325 |
| Phyllodes tumour, case report: of the breast: response to radiotherapy | 287 | Sarcoma, soft tissue in Kuwait, a review of 114 patients | 27 |
| Pituitary apoplexy, case report: an unusual cause of stroke | 75 | Sarcoma, the radiology of sarcomas and sarcomatoid carcinomas of the kidney | 249 |
| Pituitary enlargement, case report: associated with Addison's disease | 435 | | |
| Plasmacytoma, of the head and neck | 385 | | |

	Page		Page
Sciatica, the investigation of, and low back pain syndromes: current trends	151	Thrombosis, of portal vein	645
Scintigram, abnormal oesophageal, significance of	509	Thyroid, non-Hodgkin's lymphoma of the thyroid	277
Sclerotherapy, treatment of post-radiotherapy telangiectasia by injection	25	T lymphocytes, changes in helper and suppressor T lymphocytes following radiotherapy for breast cancer	191
Search pattern, extending in computed tomography	145	Transmission spectroscopy, an evaluation of (lightscanning) in the diagnosis of symptomatic breast lesions	375
Seminoma, advanced, computed tomography in	629	Transoesophageal real-time two-dimensional Doppler ultrasound	487
Seminoma testis, case report: gastric and periurethral metastases from	63	Tuberculosis, tuberculosis affecting the oesophagus	419
Sialography, differentiating tumours of the deep and superficial lobes of the parotid gland by computed tomographic	345	Tumour, Wilms and ultrasound	465
Skeletal radiology, in dysbaric osteonecrosis	589		
Small bowel, the small bowel enema made easy	295	U	
Small bowel enema (letters)	659	Ultrasound, duplex ultrasound in the evaluation of portacaval shunts	87
Spina bifida occulta	537	Ultrasound, an alternative to intravenous urography in prostatism	479
Spinal epidural haematoma, the varied CT appearances of acute	363	Ultrasound, Doppler, of oesophogastric varices	487
Splenic injuries, ultrasound diagnosis of, in children—the importance of free peritoneal fluid	395	Ultrasound of parenchymal liver disease, compared with MRI	495
Spontaneous healing, case report: of a gastroduodenal fistula due to a benign gastric ulcer	431	Ultrasound, and Wilm's tumour	465
Stenosis, percutaneous transluminal angioplasty of renal transplant artery	235	Upper extremity, digital subtraction venography of the upper extremity	423
Sterno, inter-sterno-costo-clavicular ossification	33	Ureter, stricture of the renal pelvis and ureter in bilharziasis	407
Stomach, case report, interstitial emphysema of, due to perforated appendicitis	315	Ureteric compression, is it still necessary?	179
Streptokinase infusion, case report, popliteal artery perforation during low-dose intra-arterial	321	Urography, low dose low osmolar intravenous	403
Stroke, case report: pituitary apoplexy, an unusual cause of	75	Urography, intravenous, ultrasound as alternative in prostatism	479
Students, are we taught how to use a radiology department as	137	Uterine duplication, haematocolpos and renal agenesis	545
Surgical repair, case report: ectopia cordis and the radiographic changes of a new technique	443		
		V	
T		Visual evoked response latency, the effect of intrathecal iohexol on, a comparison including incidence of headache with iopamidol and metrizamide in myelographic	71
Telangiectasia, treatment of post-radiotherapy, by injection sclerotherapy	25	vomiting, associated with whole body irradiation	263
Temporal bone, osteomas of, a report of three cases	67	Von Meyenberg complexes, the appearances of multiple biliary hamartomas of the liver on computed tomography	101
Three-dimensional reformation of computed tomography in facial trauma	523		
Thrombosis, subclavian and axillary vein following radiotherapy for carcinoma of the breast	95	W	
		Whole body irradiation, vomiting associated with	263
		Whooping cough, the chest radiograph in	39
		Wilms tumour, and ultrasound	465

INDEX BY BODY SYSTEM

BONES AND JOINTS

Page

Inter-sterno-costo-clavicular ossification	33
Osteomas of the temporal bone: a report of three cases	67
The ultrasound appearance of positive hip instability tests	117
The investigation of sciatica and low back pain syndromes: current trends	151
Second malignant neoplasms after childhood cancer: a report of three cases of osteogenic sarcoma	195
Prevalence and patterns of spina bifida occulta in 2707 normal adults	537
Bone imaging and skeletal radiology in dysbaric osteonecrosis	589
Radiographic diagnosis of fracture-separation of the entire distal humeral epiphysis	635

NEURORADIOLOGY (INCLUDING SKULL AND SPINE)

Case report: pituitary apoplexy: an unusual cause of stroke	75
Diagnostic contribution of routine cerebro-spinal fluid analysis during myelography	169
The varied CT appearances of acute spinal epidural haematoma	363
Cerebral atrophy in younger persons: a comparative study between clinical examinations and CT	367
Plasmacytoma of the head and neck	385
Magnetic resonance imaging of peri-aqueductal lesions	527
The morbidity of CT air metatography: a follow-up of 84 patients	535

CARDIOVASCULAR

Duplex ultrasound in the evaluation of portacaval shunts	87
Case report: traumatic arterio-venous fistula involving the portal venous system	91
Subclavian and axillary vein thrombosis following radiotherapy for carcinoma of the breast	95
Real-time ultrasound scanning in the planning and guidance of pericardiocentesis	119
The pace of percutaneous transluminal angioplasty in the treatment of patients having angiography for ischaemic disease of the lower limb	157
Cardiothoracic ratio in Nigerian newborn infants	187
Percutaneous transluminal angioplasty of renal transplant artery stenosis	235
Arteriography of renal transplantation	239
Real-time ultrasound diagnosis of deep-vein thrombosis: a comparison with venography	309
Case report: popliteal artery perforation during low-dose intra-arterial streptokinase infusion	321
Case report: computed tomography and ultrasound diagnosis of mycotic aneurysm of the abdominal aorta due to salmonella	325
A comparison of the incidence of cardiac arrhythmias produced by two intravenous contrast media in coronary artery disease	399
Digital subtraction venography of the upper extremity	423
Simplified peripheral arteriography	425
Case report: fibromuscular dysplasia of the cephalic and renal arteries	427
Case report: ectopia cordis and the radiographic changes of a new surgical repair technique	443
Case report: adventitial cystic disease of the popliteal artery	649

RESPIRATORY TRACT AND MEDIASTINUM

The chest radiograph in whooping cough	39
Compliance with the Royal College of Radiologists guidelines on the use of preoperative chest radiographs	45
Case report: benign thymic cyst following mantle radiotherapy for Hodgkin's disease	289
Digital subtraction venography of the upper extremity	423
Case report: ectopia cordis and the radiographic changes of a new surgical repair technique	443
Comparison of narrow section computed tomography and plain chest radiography in chronic allergic bronchopulmonary aspergillosis	593

DIGESTIVE TRACT AND ABDOMEN

A negative double-contrast barium meal—qualified reassurance	49
Midgut malrotation diagnosed by ultrasound	51
Case report: gastric and periurethral metastases from seminoma testis	63
Iopamidol in the diagnosis of suspected upper gastro-intestinal perforation	165
Medical management of radiation enteritis—an algorithmic guide	291
The small bowel enema made easy	295
Barium radiology: a sensitive test for gastrointestinal reflux	303
Case report: interstitial emphysema of the stomach due to perforated appendicitis	315
Case report: pneumoperitoneum, omental emphysema and intramural barium perforation following double contrast barium enema	319
Imaging Barretts oesophagus	415
Tuberculosis affecting the oesophagus	419
Case report: spontaneous healing of a gastroduodenal fistula due to a benign gastric ulcer	431
Angiographic signs of aortic-graft-enteritis	503
What is the significance of the abnormal oesophageal scintigram?	509
Abdominal aortic aneurysm causing duodenal obstruction	513
Gastrointestinal non-Hodgkin's lymphoma	609
The diagnosis of Meckel's diverticulum: a continuing challenge	615
Technique and evaluation of the double contrast ileostomy enema	621

THERAPY

Extramullary plasmacytoma of the rectum: two cases treated by radiotherapy	283
--	-----

BILIARY TRACT, LIVER, SPLEEN AND PANCREAS

Recurrent pyogenic cholangitis: ultrasound evaluation compared with endoscopic retrograde cholangiopancreatography	79
Duplex ultrasound in the evaluation of portacaval shunts	87
Case report: traumatic arterio-venous fistula involving the portal venous system	91
CT of the liver after biopsy	97
The appearances of multiple biliary hamartomas of the liver (von Meyenberg complexes) on CT	101
Case report: the CT appearances of benign hepatic hamartoma	103
Sonography in complicated hepatic amoebic abscess	123
MRI in hydatid disease	141
Pre-operative intravenous cholangiography as an alternative to routine operative cholangiography in elective cholecystectomy	161
Case report: bile duct carcinoma in a focal dilatation of the intrahepatic bile duct	209
Case report: angiomylipoma of the liver	329
Apparent extra-hepatic invasion by metastatic tumours in the liver	357
Ultrasound changes of the gallbladder wall in cholecystitis: a sonographic-pathological correlation	389
Ultrasound diagnosis of splenic injuries in children—the importance of free peritoneal fluid	395
Colour flow mapping of oesophagogastric varices and vessels in and around the liver with trans-oesophageal real-time two-dimensional Doppler ultrasound	487
Magnetic resonance imaging of parenchymal liver disease: a comparison with ultrasound, radionuclide scintigraphy and X-ray computed tomography	495
The left subphrenic crescent sign in direct cholangiography	549
Magnetic resonance imaging of the solitary hepatic mass: direct correlation with pathology and computed tomography	559
Case report: acute portal vein thrombosis	645
Case report: atypical presentation of empyema of the gall bladder	644

THERAPY

Use of the modified Cope introduction set for transhepatic removal of obstructed Carey-Coons biliary endoprosthesis	171
The Carey-Coons percutaneous biliary endoprosthesis: a three centre experience in 87 patients	175
Non-surgical palliative treatment of patients with malignant biliary obstruction—the place of endoscopic and percutaneous drainage	603

URINARY TRACT

Multilocular cystic nephroma: report of three cases	55
The missing balloon sign	59
Is ureteric compression still necessary?	179
Primary non-obstructive megaureter in adults	181
The ultrasound appearances of prostate cancer with histological correlation	219
Duplex ultrasound in the assessment of renal transplant complications	229
Percutaneous transluminal angioplasty of renal transplant artery stenosis	235
Arteriography of renal transplantation	239
Percutaneous nephrostomy in paediatrics	245
The radiology of sarcomas and sarcomatoid carcinomas of the kidney	249
An evaluation of the role of the intravenous urogram in the management of patients with epididymo-orchitis	255
Low dose low osmolar intravenous urography	403
Striation of the renal pelvis and ureter in bilharziasis	407
The role of routine intravenous urography in patients with primary hyperparathyroidism	411
Renal failure radiology	457
Wilm's tumour: ultrasound and changing concepts	465
Multilocular renal lesions—a diagnostic challenge	475
Case report: renal cell carcinoma—an unusual presentation and sequel	653

THERAPY

Adult nephroblastoma—five cases treated by surgery, radiotherapy and chemotherapy	483
Bladder cancer following high or low dose pelvic irradiation	583

HAEMOPOIETIC, LYMPHATIC, RETICULO-ENDOTHELIAL SYSTEMS

Hodgkin's disease in childhood, British National Lymphoma Investigation experience (BNLI report no. 27)	7
Non-Hodgkin's lymphoma of the thyroid	277
Systemic disturbance in Hodgkin's disease and its relation to histopathology and prognosis (BNLI report no. 30)	257

THERAPY

Changes in helper and suppressor T lymphocytes following radiotherapy for breast cancer	191
Vomiting associated with whole body irradiation	263
Case report: benign thymic cyst following mantle radiotherapy for Hodgkin's disease	289

REPRODUCTIVE SYSTEM

The influence of pelvic lymph node disease on survival for stage 1 and 2 carcinoma of the cervix	13
Case report: gastric and periurethral metastases from seminoma testis	63

Page

Ultrasound of the empty gestation sac in threatened abortion	127
Dysgerminoma of the ovary: a report on 29 patients	203
Case report: Gartner's duct associated with diverticulosis of the Fallopian tubes	207
The ultrasound appearances of prostatic cancer with histological correlation	219
Case report: malignant teratoma presenting with an adrenal mass	327
Ultrasound as an alternative to intravenous urography in prostatism	479
Case report: unilateral haematocolpos in uterine duplication associated with renal agenesis	545
Computed tomography of the abdomen in advanced seminoma: response to treatment	629

THERAPY

Surgery, chemotherapy and whole abdominal radiotherapy in the management of advanced ovarian carcinoma	269
Combination chemotherapy prior to radical radiotherapy for stage II and IV carcinoma of the cervix	273
Case report: high dose irradiation for recurrent carcinoma of the cervix following radical hysterectomy	439

ENDOCRINE SYSTEM

Case report: pituitary apoplexy: an unusual cause of stroke	75
Non-Hodgkin's lymphoma of the thyroid	277
Case report: malignant teratoma presenting with an adrenal mass	327
The role of routine intravenous urography in patients with primary hyperparathyroidism	411
Case report: pituitary enlargement associated with Addison's disease	435

THERAPY

Adrenal cortical carcinoma: survival after radiotherapy	589
---	-----

EAR, NOSE, THROAT, MOUTH AND EYES

A comparison of CT and ultrasound in the assessment of parotid masses	339
Differentiating tumours of the deep and superficial lobes of the parotid gland by computed tomographic sialography	345
Ultrasound imaging of the eye through the closed lid using a non-dedicated scanner	131
The importance of the jaw radiograph in diagnosis of Burkitt's lymphoma	519
Three-dimensional reformations of computed tomography in the assessment of facial trauma	523
Laryngocele—a study of five cases with reference to the radiological features	639

THERAPY

Nasopharyngeal carcinoma: a review of cases treated by radiotherapy and chemotherapy	17
Radiotherapy of choroidal malignant melanomas	21

BREAST

Case report: bilateral pneumothorax secondary to metastatic angiosarcoma of the breast	201
Comparison of CT and conventional radiology in the assessment of treatment response of lytic bony metastases in patients with carcinoma of the breast	351
An evaluation of transmission spectroscopy (lightscanning) in the diagnosis of symptomatic breast lesions	375
Patterns of axillary lymphadenopathy demonstrated by mammography: implications for the asymptomatic woman in a breast screening programme	515

THERAPY

Treatment of post-radiotherapy telangiectasia by injection sclerotherapy	25
Fat necrosis of the breast: an unusual complication of lumpectomy and radiotherapy in breast cancer	31
Subclavian and axillary vein thrombosis following radiotherapy for carcinoma of the breast	95
Changes in helper and suppressor T lymphocytes following radiotherapy for breast cancer	191
New methods for implanting plastic tubes for ¹⁹² iridium brachytherapy using steel needles	275
Case report: phyllodes tumour of the breast: response to radiotherapy	287
Short term morbidity and cosmesis following lumpectomy and radical radiotherapy for operable breast cancer	371

SKIN AND SOFT TISSUES

Soft tissue sarcoma in Kuwait: a review of 114 patients	27
---	----

THERAPY

New methods for implanting plastic tubes for ¹⁹² iridium brachytherapy using steel needles	275
---	-----

PAEDIATRIC

Hodgkin's disease in childhood, British National Lymphoma Investigation experience (BNLI report no. 27)	7
Midgut malrotation diagnosed by ultrasound	51
Multilocular cystic nephroma: report of three cases	55
Second malignant neoplasms after childhood cancer: a report of three cases of osteogenic sarcoma	195
Percutaneous nephrostomy in paediatrics	245
Ultrasound diagnosis of splenic injuries in children—the importance of free peritoneal fluid	395
Infantile hypertrophic pyloric stenosis—diagnosis from the pyloric muscle index	625

COMPUTED TOMOGRAPHY

CT of the liver after biopsy	97
The appearances of multiple biliary hamartomas of the liver (von Meyenberg complexes) on computed tomography	101
Case report: the computed tomographic appearances of benign hepatic hamartoma	103
Extending the search pattern in CT	145
The investigation of sciatica and low back pain syndromes: current trends	151
Case report: computed tomography and ultrasound diagnosis of mycotic aneurysm of the abdominal aorta due to salmonella	325
A comparison of computed tomography and ultrasound in the assessment of parotid masses	339
The varied CT appearances of acute spinal epidural haematoma	363
Cerebral atrophy in younger persons: a comparative study between clinical examinations and CT	367
Three-dimensional reformations of computed tomography in the assessment of facial trauma	523
The morbidity of CT air meatography: a follow-up of 84 patients	535
Comparison of narrow section computed tomography and plain chest radiography in chronic allergic bronchopulmonary aspergillosis	593
Computed tomography in the follow up of retroperitoneal fibrosis	597

THERAPY

Comparison of CT and conventional radiology in the assessment of treatment response of lytic bony metastases in patients with carcinoma of the breast	351
Computed tomography of the abdomen in advanced seminoma: response to treatment	629

ULTRASOUND

Midgut malrotation diagnosed by ultrasound	51
Recurrent pyogenic cholangitis: ultrasound evaluation compared with endoscopic retrograde cholangiopancreatography	79
Duplex ultrasound in the evaluation of portacaval shunts	87
The ultrasound appearance of positive hip instability tests	117
Real-time ultrasound scanning in the planning and guidance of pericardiocentesis	119
Sonography in complicated hepatic amoebic abscess	123
Ultrasound of the empty gestation sac in threatened abortion	127
Ultrasound imaging of the eye through the closed lid using a non-dedicated scanner	131
The ultrasound appearances of prostatic cancer with histological correlation	219
Duplex ultrasound in the assessment of renal transplant complications	229
Real-time ultrasound diagnosis of deep-vein thrombosis: a comparison with venography	309
Case report: computed tomography and ultrasound diagnosis of mycotic aneurysm of the abdominal aorta due to salmonella	325
A comparison of CT and ultrasound in the assessment of parotid masses	339
Ultrasound changes of the gallbladder wall in cholecystitis: a sonographic-pathological correlation	389
Ultrasound diagnosis of splenic injuries in children—the importance of free peritoneal fluid	395
Wilm's tumour: ultrasound and changing concepts	465
Ultrasound as an alternative to intravenous urography in prostatism	479
Colour flow mapping of oesophagogastric varices and vessels in and around the liver with trans-oesophageal real-time two-dimensional Doppler ultrasound	487

NUCLEAR MAGNETIC RESONANCE

MRI in hydatid disease	141
Magnetic resonance imaging of parenchymal liver disease: a comparison with ultrasound, radionuclide scintigraphy and X-ray computed tomography	495
Magnetic resonance imaging of peri-aqueductal lesions	527
Magnetic resonance imaging of the solitary hepatic mass: direct correlation with pathology and computed tomography	559

OTHER TECHNIQUES, APPARATUS, CONTRAST MEDIA AND TRIALS

Annotation: radiological contrast media	3
The effect of intrathecal iohexol on visual evoked response latency: a comparison including incidence of headache with iopamidol and metrizamide in myelographic radiography	71
The place of percutaneous transluminal angioplasty in the treatment of patients having angiography of ischaemic disease of the lower limb	157
Pre-operative intravenous cholangiography as an alternative to routine operative cholangiography in elective cholecystectomy	161
Iopamidol in the diagnosis of suspected upper gastro-intestinal perforation	165
Diagnostic contribution of routine cerebro-spinal fluid analysis during myelography	169
Case report: popliteal artery perforation during low-dose intra-arterial streptokinase infusion	321
Differentiating tumours of the deep and superficial lobes of the parotid gland by computed tomographic sialography	345
An evaluation of transmission spectroscopy (lightscanning) in the diagnosis of symptomatic breast lesions	375
Electron arc therapy: beam data requirements and treatment planning	379
A comparison of the incidence of cardiac arrhythmias produced by two intravenous contrast media in coronary artery disease	399
Digital subtraction venography of the upper extremity	423
A double-blind randomised cross-over comparison of nabilone and metoclopramide in the control of radiation-induced nausea	543
Technique and evaluation of the double contrast ileostomy enema	621

THERAPY

Use of the modified cope introduction set for the transhepatic removal of obstructed Carey-Coons biliary endoprosthesis	171
The Carey-Coons percutaneous biliary endoprosthesis: a three centre experience in 87 patients	175
Changes in helper and suppressor T lymphocytes following radiotherapy for breast cancer	191
Annotation: population screening by mammography	215

	<i>Page</i>
Hemi-body radiotherapy in the management of metastatic carcinoma	267
New methods for implanting plastic tubes for ¹⁹² Ir iridium brachytherapy using steel needles	275
Adult nephroblastoma—five cases treated by surgery, radiotherapy and chemotherapy	483
Modifications of relaxation times induced by radiation therapy in cervical carcinoma: preliminary results	569
A randomised clinical trial to contrast radiotherapy with radiotherapy and methotrexate given synchronously in head and neck cancer ..	575
Adrenal cortical carcinoma: survival after radiotherapy	587

MISCELLANEOUS AND EDUCATIONAL

Whither radiotherapy	107
Are we taught how to use a radiology department as medical students?	137
Annotation: population screening by mammography	215
Guidelines for breast cancer screening	217
Compliance with the Royal College of Radiologists guidelines on the use of preoperative chest radiographs	45
